SUMMARY

Full Stack Web Developer with a background in Social Work and life-long dedication to learning. Effective at combining creativity and problem solving to develop user-friendly applications. Known among staff for strong wit and attention to detail no matter the complexity of the project.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, JQuery, and Node Js
Applications: VSCode, GitHub, GitBash, Bootstrap, SkeletonCSS

PROJECTS

Streaming Guide | https://github.com/imbingz/Ultimate-Streaming-Guide | https://imbingz.github.io/Ultimate-Streaming-Guide/
- Streaming Guide is an application dedicated to allowing people to find what show or movie is streaming on which streaming site.
- My responsibilities were managing the JS side and making sure the AJAX calls to the APIS were working as well as getting that data onto the site.
- The top language used was JavaScript. A few tools that we used for this application are OMDB API, UTelly API, and SkeletonCSS

AmalgaNation | https://github.com/SydneyGoodwill/amalganation | https://fast-woodland-71053.herokuapp.com/login
- AmalgaNation is a amalgamation of many different ideas clumped into one. There is an online arcade, API calls, and a chat room.
- My responsibilities were managing the user authentication, the sign in process as well as the game we implemented, and the route protections.
- For this project JavaScript and Handlebars were the most frequently used. We used Socket.io to ensure a working chat room.

EXPERIENCE

Oxbow Academy   2017 – 2019
Oxbow   Wales, UT
Communicated often with staff members, as well as clients, and supervisors to ensure a safe environment. Input data and summaries of all activities and events of the day..

EDUCATION
